

Don't miss Nova Scotia's *most popular* Whale/Seabird Adventure! **Ocean Explorations** are conducted in a very large **Zodiac™** (or *Zodiac-type*) boat, smaller versions made famous by *Jacques Cousteau* and *Greenpeace*. The **speed** and **range** of these professional boats allow us to get to where-ever the whales are!! **Nova Scotia's original** (since 1986) *Zodiac* whale/seabird tour. Nova Scotia's lower Bay of Fundy is the best place in the maritimes to see big whales!

It was the highlight of my vacation and possibly the most exciting and interesting event in my life in years.
P. DeVeau, Florida

Our guests tell us we don't emphasize just how *fun* the *Zodiac* ride is in of itself and many people comment that it *is worth it just for the Zodiac ride!!* But if we don't see any whales on a full trip (*very unusual*), we will give you a raincheck* to join us for another try. The *Zodiac* is best suited for those that wish to observe seals along the shore.

Worth the trip just for the seals ...they are so cute!

**Raincheck guarantee!!* (some conditions may apply)
No one can actually *guarantee sightings*, except *Marineland*

If you are lucky enough to have the dolphins *play* with the *Zodiac*, we guarantee it will be something you will remember for a long time! Most common species seen are Minke, humpback, fin and the highly endangered Right whales. Blue and killer whales have also been seen. We *don't promise* that you will get any closer to whales than much larger, slower *tour boats*. We do believe though, that you will *feel* closer and gain a better appreciation of the ocean down at sea-level. You will also find the much smaller group size more personal.

Going out on "the zodiac" and seeing the Right Whales mating was a highlight of our trip.....Thanks for the Great Hospitality!
The Walkers, North Carolina

We are currently using several different *inflatables* including an **extra-large** rigid hull boat. These boats can easily handle severe ocean storms (they are **search and rescue** boats!) and our new *custom-built main* boat has 7 independent chambers, aluminum hull, twin motors, radios, GPS, radar etc. Our second (and third) boats are slightly smaller with all the safety gear, however, we **do not guarantee** you will travel in a specific boat.

...a Cousteau-esque experience!
S.Prescott, Montreal

Ausgezeichnet!
Jutta Theune, Germany

Definitely one of the top three events of my life.
S. Miles, Maryland

We've taken virtually all ages, from young children to a gentleman in his eighties. May not be suitable for people with back problems or pregnant women on rough sea days. Normally, the biggest challenge is getting in and out of the boat (seriously!)

One of the highlights of a lifetime...your knowledge of the whales enhanced the experience immeasurably as did seeing them in the Zodiac.
I can't imagine a better way to see whales!
P.Hogen, Connecticut

...was almost the highlight of our honeymoon!
The Swongers, Ohio

We are conveniently located only 100 m/yds from the first ferry (Long Island). We provide washrooms on-site and waiting/reading areas. We are found close to other attractions/facilities, such as the **Balancing Rock** hiking trail, **Boars Head** lighthouse, a **general store** and a **take out** (for lunches/snacks).

Rental of Full length Floater suits for your safety and comfort included
(adult sizes only, lifejackets & raingear for kids)

Common questions and misconceptions: *Yes* - the trip is suitable for virtually anyone!! *No* - we don't normally get wet, except rough days. You are less likely to get seasick (than in a tourboat). *Porta-pottie* (and curtain) onboard. *Yes* - we do go out in the fog, and have had excellent results on foggy trips. *No* - a guide gratuity is not expected, but certainly appreciated.
